DETAILED ACTION

The response filed on 13 September 2006 has been entered and overcomes the rejections to claims 20 and 21.

The allowability of claim 23 has been withdrawn.

Claim Rejections - 35 USC § 112

1. Claim 23 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 23 recites the limitation "the first electrodes" in line one of the claim. There is insufficient antecedent basis for this limitation in the claim.

Claim 23 recites the limitation "the second electrodes" in line two of the claim. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 23 is rejected under 35 U.S.C. 102(b) as being anticipated by VanSlyke et al. (US 4,720,432).

Art Unit: 2879

Regarding claim 23, VanSlyke ('432) teaches in figure 1 and the corresponding text an organic EL display panel (100) wherein the first electrodes are anodes (102) and each of the second electrodes (104) are cathodes.

Allowable Subject Matter

3. Claims 1-10 and 16-22 are allowed.
